

# GARDEN NOTES 2007

The deteriorated Spring Pond was renovated and by mid-summer was a new favorite photo spot for visitors to the garden. You can easily see why!

*Many changes took place this year, here are a few of the new additions to the Garden.*

Early in the Spring, five new comfortable benches were added to enjoy viewing the garden and more to come soon!

Our sprinkler system was updated and improved this year to keep our roses wonderfully blooming all season, well into October.
